Vision

Partner Housing Australasia is an entirely voluntary organisation, which aims to transform the lives of people living in Asia-Pacific villages by improving the cyclone, earthquake and tsunami resistance of their houses, clinics, schools, and community buildings; and by providing clean water supplies and hygienic sanitation.

Commitment

Consistent with the vision, Partner Housing Australasia and its Partner Organisations are committed to designing policies, procedures and programs that do not in any way harm, or contribute to harm to children, either directly or indirectly. Partner Housing Australasia has a zero-tolerance approach to child exploitation or abuse.

Code of Conduct

Partner Housing Australasia is a signatory to the ACFID Code of Conduct, which is a voluntary, self-regulatory sector code of good practice. As a signatory, we are committed and fully adhere to the ACFID Code of Conduct, conducting our work with transparency, accountability, and integrity. The following policies and procedures have been developed to reflect the vision, and to simultaneously ensure consistency with the ACFID Code of Conduct.

Scope

These Policies and Procedures apply to Partner Housing Australasia, its Partner Organisations, Representatives, and any guests who might accompany these people to the locations where the programs are implemented. The “Policy” expands the organisation’s vision, mission, and values; together with satisfying the DFAT and ACFID requirements, and the “Procedures” set out the means of implementing policy. An associated “Training” document provides additional material and background, and “Compliance and Audit Record” documents provide the relevant records of compliance and verification.

Definitions

A comprehensive set of definitions is set out in “Constitution & Code of Conduct”. Definitions specific to this policy are set out below.

Partner Organisations are those bodies working with Partner Housing Australasia to implement the programs. For purposes of this document, they include (but are not limited to) Vision for Homes [PNG] and South Ranongga Community Association [SRCA]).

Risk Analysis is a systematic use of available information to determine how often specified events may occur and the magnitude of their likely consequence. For purposes of this policy, Risk Analysis and associated terms (including those listed herein) are as defined in ISO 31000 and AS/NZS 4360 “Risk management”.

Child-friendly processes are practices that are non-confrontational, and allow children to feel that their complaint is genuinely recognised and understood.

Duty of Care is a common law concept that refers to the responsibility of the organisation to provide children with an adequate level of protection against harm. It is the duty of the organisation to protect children from all reasonably foreseeable risk of injury.

Child or young person is defined as any person under the age of 18 years, unless a nation’s laws recognise adulthood earlier.

Child Protection is the term used to describe the responsibilities and activities undertaken to prevent or stop children being abused or maltreated.

Child Abuse includes physical, sexual, emotional, neglect, bullying, child labour and domestic violence. Both boys and girls can be the victims of abuse, and abuse can be inflicted on a child by both men and women, as well as by young people themselves. Abuse happens to male and female children of all ages, ethnicity and social backgrounds, abilities, sexual orientation, religious beliefs, and political persuasion. In some cases, professionals and other adults working with children in a position of trust also abuse children.

Child exploitation is one or more of the following:

- Committing or coercing another person to commit an act or acts of abuse against a child
- Possessing, controlling, producing, distributing, obtaining, or transmitting child exploitation material
- Committing or coercing another person to commit an act or acts of grooming or online grooming
- Using a minor for profit, labour, sexual gratification or some other personal or financial advantage.

Physical Abuse occurs when a person purposefully injures or threatens to injure a child or young person. This may take the form of slapping, punching, shaking, kicking, burning, shoving, or grabbing. The injury may take the form of bruises, cuts, burns or fractures.

Emotional abuse occurs when a child is repeatedly rejected or frightened by threats. This may involve name calling, being put down or continual coldness from parent or caregiver, to the extent that it affects the child’s physical and emotional growth.

Neglect is the persistent failure or the deliberate denial to provide the child with clean water, food, shelter, sanitation or supervision or care to the extent that the child’s health and development are placed at risk.

Ill-treatment occurs when disciplining or correcting a child in an unreasonable and seriously inappropriate or improper manner, making excessive and/or degrading demands of a child; hostile use of force towards a child, and/or a pattern of hostile or unreasonable and seriously inappropriate degrading comments or behaviour towards a child.

Harm is any detrimental effect on a child's physical, psychological, or emotional wellbeing. Harm may be caused by financial, physical, or emotional abuse, neglect, and/or sexual abuse or exploitation whether intended or unintended.

Sexual abuse occurs when a child or young person is used by an older or bigger child, adolescent or adult for his or her own sexual stimulation or gratification, regardless of the age of majority or age of consent locally. These can be contact or non-contact acts, including threats and exposure to pornography.

Child-Sex Tourism is '...the commercial sexual exploitation of children by men or women who travel from one place to another, usually from a richer country to one that is less developed, and there engage in sexual acts with children, defined as anyone aged under 18 years of age.' (ECPAT International, 2006)

Bullying is the inappropriate use of power by an individual or group, with an intent to injure either physically or emotionally. It is usually deliberate and repetitive. The bullying may be physical or psychological (verbal and non-verbal). Physically, bullying includes pushing, hitting, punching, kicking or any other action causing hurt or injury. Verbal bullying includes insults, taunts, threats, and ridicules. Psychological bullying includes physical intimidation and ostracism.

Exposure to Domestic Violence occurs when children and young people witness or experience the chronic domination, coercion, intimidation, and victimisation of one person by another by physical, sexual or emotional means within intimate relationships. (Adapted from the Australian Medical Association definition)

Particularly vulnerable children include children within or outside the family environment, in institutions, at work, on the streets, in war zones and in emergencies. Children in emergencies are especially vulnerable to abuse and exploitation. In an emergency or crisis situation, children are extremely vulnerable when they become part of a displaced or traumatised population.

Child exploitation material is material irrespective of its form which is classified as child abuse material or child pornography material.

Child abuse material is material that depicts (expressly or implicitly) a child as a victim of torture, cruelty or physical abuse.

Child pornography material is material that depicts a person, or is a representation of a person, who is, or appears to be, under 18 years of age and is engaged in, or appears to be engaged in, a sexual pose or sexual activity, or is in the presence of a person who is engaged in, or appears to be engaged in, a sexual pose or activity, and does this in a way that a reasonable person would regard as being, in all the circumstances, offensive.

Grooming is behaviour that makes it easier for an offender to procure a child for sexual activity. For example, an offender might build a relationship of trust with the child, and then seek to sexualise that relationship (for example by encouraging romantic feelings, or exposing the child to sexual concepts through pornography).

Online grooming is the act of sending an electronic message to a child, with the intention of procuring the recipient to engage in or submit to sexual activity with another person, including but not necessarily the sender; or of sending an electronic message with indecent content to a recipient who the sender believes to be a child.

Monitoring is the systematic observation over a nominated period of time of the performance of programs, and reporting against predetermined criteria.

Evaluation is the determination of whether the reported performance of programs meets the expectations for the program, as defined by predetermined criteria.

Representatives is the term used to describe collectively the Board Directors, Managers, Volunteers, Staff (if so engaged), Contractors and Consultants who administer the programs and projects.

Volunteer means a person who carries out executive, management, administrative, operations, design, project management and/or similar functions (whether executed in Australia or overseas) on a probono basis, under the direction of the Chief Executive Officer (on behalf of the Board). A Volunteer may also be a Member or a Director. Partner Housing Australasia is an entirely voluntary organisation. Volunteer does not include “Contractors” or “Consultants”, who provide goods or services on a probono or commercial basis, or people who provide minor assistance on a casual and infrequent basis.
